

## **Advanced Research theory and Methodology in Informatics, 7,5 HE credits**

*Avancerad forskningsteori och metodik i informatik, 7,5 hp*

---

Established: 2010-03-26

Established by:

Applies from: V11

---

### **Learning outcomes**

**The students should demonstrate in-depth knowledge and understanding of:**

- scientific and theoretical approaches, relevant to the IT society and its research
- design and theories in Informatics relevant to the IT society

**The students should demonstrate their skill and ability to:**

- In an in-depth way, analyze both qualitative and quantitative research empirical data
- critically review scientific articles
- conduct independent planning of both quantitative and qualitative research studies, where problems, approaches, and methods are linked in a consistent and reflective manner

**The students should demonstrate their ability to value and judge:**

- professional and ethical aspects in scientific studies

### **Entry requirements**

Students must hold a Bachelor's degree in science or engineering in the computing field, or in social science with an explicit focus on information and communication technology, e.g.: computer science, software engineering, information systems, informatics, media technology or data communication or the equivalent. An essential prerequisite for both students from Swedish universities and students from non-Swedish universities is good knowledge of English, both orally and in writing. Specific eligibility in the English language from upper secondary school for non-Swedish students, and students who do not have English as their native language.

### **The forms of assessment of student performance**

Examination takes place with two written individual assignments.

### **Other regulations**

Course grading: F/Fx/E/D/C/B/A - Insufficient, Insufficient- more work required before the credit can be awarded, Sufficient, Satisfactory, Good, Very Good, Excellent

Course language: The teaching is conducted in English.

General rules pertaining to examination at University West are available at [www.hv.se](http://www.hv.se).

If the student has a decision/recommendation on special support due to disability, the examiner has the right to examine the student in a customized examination form.

**Cycle**

Second cycle

**Progressive specialization**

A1N - second cycle, has only first-cycle course/s as entry requirements

**Main field of study**

Informatics
