

## **Fixed Income Fundamentals and Derivatives, 7,5 HE credits**

*Räntebärande instrument och derivat, 7,5 hp*

---

Established: 2016-05-24

Established by:

Applies from: H16

---

### **Learning outcomes**

This course equips students with the tools required to understand the construction, the pricing and the risks of bonds and fixed income derivatives. The course introduces students to the state-of-the-art analytical tools and management strategies currently used by financial leaders.

Upon completion of the course, students should be able to:

#### *Knowledge and understanding*

- Explain why various features of fixed income securities influence their pricing and risk.
- Describe the global fixed income markets, term structure of interest rates and derivatives
- Explain mortgage-backed securities and interest-rate models

#### *Skills and abilities*

- Choose scientific methods to quantify and analyze the price and value, as well as the duration of fixed income securities.
- Identify the fixed income securities to examine the status of market-wide interest rates and to manage interest rate risk.

#### *Judgement and approach*

- Motivate and assess theoretical and empirical issues in the field of fixed income securities and derivatives
